Re.: **INTERNATIONAL CRISIS**

Dear Valuable Customer,

in reference to the escalation of the Russia-Ukrainian conflict, and the possible impact of this dramatic event on our supply chain, we would like to reassure you of Guarniflon® capabilities to guarantee the provision of your products.

Our long term partnership with the main manufacturers of raw materials, allows us to exclude the possibility of any shortage or reduction in material supply.

We will continue to monitor the situation with the added assurance to promptly inform you of any critical issue that would challenge our ability to fulfill our commitments.

It is possible that the international situation could generate additional pressure on the price of raw materials and operations/logistics costs necessary to support the supply and transportation of goods, including the list price of PTFE.

We are at your disposal through our sales offices for any request you might have.

Respectfully yours.
